• The same source entry records a total of 07 persons arrested, comprising one Indian and six Nigerian nationals. The
• arrest figure relates to the mixed Cocaine, Amphetamine and MDMA seizure record and is not attributed to MDMA

Use in the NARCIS test set

• This is the MDMA-linked seizure record used to represent the MDMA drug profile because the uploaded NCB
• Annual Report does not present MDMA as one of the numbered Case Study 01-10 profiles. The document therefore
• preserves the source classification instead of falsely labeling it as an isolated MDMA case study.
