Seizure of Methamphetamine from a non-AIS vessel in the Arabian Sea

CASE STUDY - 07

Name of the Drug : Methamphetamine

Qty. Seized : 2525.675 Kgs Methamphetamine

NCB Zonal Unit : Cochin Zonal Unit

Total Arrest : 06 Persons

Interception and seizure

- Based on specific information, the Indian Navy apprehended one foreign national, described in the report as Iranian/Pakistani, along with 2525.675 kg of Methamphetamine recovered from a non-AIS vessel in the Arabian Sea.

NCB action

- The foreigner and the contraband were handed over by the Indian Navy to NCB Cochin on 13.05.2023. NCB Cochin seized the contraband and arrested the foreigner after examination.

Origin and trafficking route

- The contraband was believed to have originated from Pakistan and to have been transported by sea from off Chabahar Port, Iran. The report describes a Pakistan-based drug trafficker, an associate operating from Iran, and the arrested carrier as part of the trafficking chain.
